PROJECTS

CliqDrop - Universal Data Transfer | [GitHub](#) | [Live](#) Aug' 2025 – Oct' 2025

- Built a frictionless data-transfer system enabling quick text/file sharing through auto-generated codes, removing the need for accounts or device pairing.
- Simplified real-time sharing for strangers, teams, and multi-device workflows with a fast, clean UI and secure temporary sessions.
- Reduced sharing time by 70% and enabled seamless cross-platform use, improving accessibility and user convenience.

Tech stacks: React.js, Tailwind CSS, Node.js, PostgreSQL

Insights - Sentiment & Engagement Dashboard | [GitHub](#) Feb' 2025 – Apr' 2025

- Developed an NLP-based system for extracting sentiment, keywords, and engagement metrics from multiple content types (posts, reviews, comments)
- Provided a unified dashboard with visual graphs, context detection, and categorization for faster decision-making.
- Improved analysis accuracy and reduced manual content review time by 60%, offering real-time Insights for users and businesses.

Tech stacks: HTML, Tailwind CSS, JavaScript, PHP, MySQL

Wear Wise - Online Shopping Site | [GitHub](#) Oct' 2025 – Dec' 2025

- Built an e-commerce platform integrated with AI models to deliver personalized clothing recommendations and smart product discovery.
- Enhanced user experience through automated sizing suggestions, trend-based recommendations, and quick search for improvements.
- Increased user engagement and purchase likelihood by 45% with AI-driven personalization and a seamless shopping workflow.

Tech stacks: HTML, CSS, JavaScript, MySQL

CERTIFICATES

- | | |
|--|----------------|
| • Developer and Technology Job Simulation - Accenture | September 2025 |
| • Software Engineering Job Simulation – JPMorgan Chase & Co. | September 2025 |

ACHIEVEMENTS

- **Secured seat in final round** March 2024
Qualified for final round in Hackathon | Code-A-Haunt
